24	25 OFFICE CLOSED MERRY CHRISTMAS	26	27 CITY COUNCIL 4:30PM (Event Center)	28	29	30

Unless otherwise noted, meetings listed above are held at the Fire Hall.

2024 Dog License

Dog owners are required to obtain a dog license each year for all dogs over the age of three (3) months. Please bring a current certificate from a qualified veterinarian showing the dog has been given a vaccination against rabies within a period of one year preceding the application for license. The fee for each license is \$10. Cash or check accepted.

**Code Corner**

City Council adopted changes to city ordinance regarding the placement, storage, and screening of garbage and recycling containers.

The storage of garbage and recycling containers should be in an enclosed building. However, if containers must be stored outside they need to be placed neatly against either the back or side of the main structure with lids fully closed.

On collection days, please keep your garbage can behind the curb line. This reduces the chance they are hit by snow plows. Containers should be moved from the collection point as soon as possible after collection has been completed; recommendation is within 24 hours of collection.

Water Conservation Tip: Collect **water** used to rinse fruits & veggies to **water** household plants - including that live Christmas tree if you have one.

**Building Permit Information**

No construction or alteration of a building may begin until a Building Permit application has been approved and paid for.

Failure to obtain a Building Permit PRIOR to the start of all applicable projects will be subject to a fine equal to the cost of the permit PLUS the charges associated with obtaining the permit, for each day a permit is not granted.

There are many construction and home remodeling projects that require a building permit. Here are just some examples of work that will require an approved permit prior to any work beginning:

- Re-shingling a roof
- Window replacement
- New construction
- Fences greater than 6' in height
- Sheds 201 square foot or larger
- Installation of water softeners/heaters
- Plumbing & HVAC work

Visit the city's website at [www.frazeecity.com](http://www.frazeecity.com) for a more detailed list of building projects requiring a permit or call city hall at 218-334-4991.
