Don't run the **Faucet** When **Brushing Your Teeth**

Brought to you by:

Minnesota Rural Water Association

EPA estimates that the average U.S. citizen wastes 2 gallons daily on oral hygiene. That might amount to 600 million gallons daily! Don't run the faucet when you aren't using it. That's a "nice save" for Minnesota's water future. It's important for each of us to save water, ever day. Shutting off the faucet will help with water conservation. Help Us Keep Your Dog Safe!
If your furry escape artist ever goes on an unexpected adventure, having a current dog license helps us get them back to you faster. A quick tag on their collar means a quick trip home.

YOUR TOILET ISN'T A GARBAGE CAN

Give your pipes a break. They're sensitive.

Only flush toilet paper —
not wipes, tissues, paper towels, or anything else pretending to be "flushable."

Give your pipes a break. **not wipes, tissues, paper towels, or anything else pretending to be "flushable."**

Keeping the wrong stuff out of the toilet helps your plumbing, your sewer system, and your wallet stay happy.
