222 Main Ave West | PO Box 387 | Frazee MN 56544 | Office: 218-334-4991 | Website: www.frazeecity.com

FALL IS ALMOST HERE — TIME TO PREPARE!

A few simple tasks now can help prevent problems later:

Check your furnace or heating system. Before the first cold night, make sure your furnace is working properly and replace your filter if needed.

Clean leaves from around your home. Keep leaves and debris away from drains, culverts and other areas where they can block water flow.

Disconnect garden hoses. As temperatures begin to drop, disconnect outdoor hoses and protect exterior faucets from freezing.

Check outdoor lighting. With daylight hours getting shorter, make sure walkways, entrances and exterior lights are working properly.

Prepare your lawn and landscaping. Fall is a good time to clean up gardens, trim overgrown vegetation and remove dead or diseased plant material.

SCHOOL IS BACK IN SESSION - SLOW DOWN & WATCH FOR KIDS

With students walking, biking and riding the bus, please use extra caution throughout the community.

Remember:

- ◆ Slow down in residential neighborhoods.
- ◆ Stop for school buses when required.
- ◆ Give pedestrians and bicyclists plenty of room.
- ◆ Watch carefully for children near streets and driveways.
- ◆ Be especially alert during morning and afternoon school hours.
- ◆ Use crosswalks

A few extra seconds of caution can make a big difference!

PROTECT YOUR WATER SERVICE THIS FALL

As temperatures begin to fall, now is a good time to make sure your water service is ready for winter. Residents should:

- ◆ Know where your home's main water shut-off is located.
- ◆ Repair leaking faucets and toilets.
- ◆ Make sure outdoor faucets are properly shut off.
- ◆ Test sump pump, clear discharge line, and make sure it's working properly.
- ◆ Disconnect hoses before freezing temperatures arrive.
- ◆ Keep access to your water meter and utility areas clear.

If you notice a water leak, unusual water usage, or another utility concern, please contact City Hall.

PLANNING A FALL PROJECT? Thinking about a new shed, fence, deck, addition, driveway work, demolition, or other improvements? Check with City Hall before you begin as many projects do require a building permit. Permit requirements can vary depending on the type and location of the project. Checking first can help prevent delays, unexpected costs, or having to make changes after work has started. When in doubt, ask before you build!

FALL CLEAN-UP REMINDER As you clean up yards and gardens this fall, please remember:

- Keep leaves and grass clippings out of streets and storm drains. They can clog drainage systems and cause slippery conditions for vehicles and bicyclists.
- Do not place yard waste where it can block sidewalks or roadways.
- Keep private property and boulevard areas neat and accessible.
- Follow local rules for garbage, recycling and yard waste disposal.
- Bring leaves, grass clippings and other approved yard waste to the local compost site at no charge. The site is located just north of Frazee on the east side of Highway 29.
